EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given at page 23 of the applicant's response of October 17, 2006.

The application has been amended as follows:

In claim 37 line 10 "a" has been deleted and --the-- has been inserted therefore.

In claim 37 lines 11 and 12 "the counter rotatable second low pressure turbine and" has been deleted.

The following is an examiner's statement of reasons for allowance: the prior art neither discloses nor makes obvious a FLADE counter-rotating fan aircraft engine as claimed including a variable throat area engine nozzle downstream and axially aft of the second low pressure turbine which is drivingly connected to the first fan. The closest prior art is Johnson (USPN 5,404,713) which discloses a FLADE engine having a variable area nozzle (122) downstream of the low pressure turbine (28). The variable nozzle of Johnson is not however a "variable throat area engine nozzle". The Johnson nozzle varies the area of the outlet section of the divergent part of the nozzle. The hollow center body is of a fixed form up to the pivot (218) of the exhaust nozzle. This

structural arrangement allows for the proper mixing and flow conditions of the bypass flow and the core flows and also for the exhaust of the portion of the FLADE duct gasses routed through the hollow strut (208). Because of this, modification or substitution of a variable throat area nozzle for the variable nozzle (122) would not be obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles G. Freay whose telephone number is 571-272-4827. The examiner can normally be reached on Monday through Friday 8:30 A.M. to 5:30 P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ehud Gartenberg can be reached on 571-272-4828. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
